

Directions from Leeds or Sheffield

M62 East towards Hull.

Follow the motorway all the way to the end. The road then becomes the A63 and narrows to a dual carriageway instead of 3 lanes. At this point leave the motorway, there is a large motorway sign over the carriageway and it is sign-posted North Cave.

At the end of the exit road turn left into North Cave. Go through the village until you reach a T-junction with a local newsagent in front of you. Turn right here and follow the road out of the village. About 2 miles out of the village you will come to another T-junction. Turn left here and then almost immediately you turn right. Just after this turning you will pass a Conference Centre on your left hand side called Rudstone Walk.

Keep on this road for about 5 miles after which you will come into Walkington Village. You will know you have arrived in the village because there are loads of traffic calmers.

Keep going all the way through the village to the other end of village where you will find a set of traffic lights. Turn right at these traffic lights and keep following this road for another 2 miles. You will come across a series of 3 quite sharp bends; the first is left then a right, at the third bend turn right instead of following the road to the left. You will see the sign of Risby Fishing pond

Follow this single track road until you come turn off on your right hand side. This is the entrance to the ponds.

You will find a site map near the entrance
